NOTES:

1. The data presented here are taken from the annual FBI Crime in the United States reports.
2. For the most recent year presented, the data were taken from Table 5.
3. For the years 1984 to the most recent year, data were taken from Table 4; i.e.: the 1984 figures were taken from Table 4 in the 1985 manual. This table was used as the numbers may have been updated from the original submissions by the States.
4. For the years 1972 to 1983, the data were taken from Table 3; i.e.: the 1972 figures were taken from Table 3 in the 1973 manual. This table was used as the numbers may have been updated from the original submissions by the States.
5. For the years 1972 to 1978, the District of Columbia was not listed as a separate entry, but was included in the "South Atlantic" totals of Table 3. The DC's numbers were extracted by subtracting the totals of the states from the totals of the South Atlantic area.
6. Rates were not included in the data to limit the size of this file. Rates can be calculated using the data given.
7. If any errors are found in the table, please let us know at < fsac@fdle.state.fl.us >. Thank you.
8. Researchers who utilizes this data should be aware that the FBI tables that the numbers were taken from have footnotes that further clarify the material. Those footnotes are not reproduced here. It is suggested that users familiarize themselves with those footnotes.
